Could we do the meeting from 2:30 to 4:00 on Friday April 29?

Sure, I'll send two placeholders today and either I or Christina can finalize when we hear from you next week.

Can you confirm whether County folks will be here at our offices and/or will this be by phone?

By the way, I'll be in AZ Tue/Wed of next week.

Brent reports that at this point he is still working with his OCIR contacts to determine more details about the Apr 19 (although he thought it was the 21st) meeting with the Administrator, i.e., who else from EPA will attend.

We could try 11:00 to 12:30 or 1:30 to 3:00 on Friday. Let me check on the County side.

The 29th is looking pretty darn good. Just confirmed with Tom H that other days that week are bad for him and Jeff– they are at national meeting.

But Friday looks good for everyone (Enrique has one commitment at 10). Jeff is out but Tom will cover. And if Enrique has other commitments that don't show up, it looks good for John and Dan.

Give me a time and I'll send a placeholder until.

Thanks, Deldi. I think it would be great if Enrique and someone from Land Division could meet with the County. I understand the scheduling problem though. How about the week of April 25th? Either Monday, Wednesday, or Friday? The County will have Ben Polk of Supervisor Solis' office, Angelo or something from County Department of Health, County Counsel, and me.

Keith, Enrique is happy to meet with the County. Challenge will be scheduling. Next week he is tied up with headquarters meetings 2.5 days and is out of pocket most of the week of the 18th. However, John Lyons and or Dan Meer may be more available the week of the 18th if you all decide you want to meet prior to the meeting with the Administrator.

Please advise re your timing and we'll figure it out.

OK, thanks. Let me know when you hear back from Ana. I haven't heard of City Project. I don't understand the inequity issue as it relates to Exide?

I believe the meeting between Solis and McCarthy is April 19th. I will know more tomorrow because we are having a preparation meeting. I'll call or email you.

I have recommended that the County also meet with Region 9 either before or just after the Solis/McCarthy meeting. I think that Ben Polk, who works for Solis, and some folks from County Health and County Counsel will at visit Region 9.

Because Solis is not attending, the County folks should meet with Enrique and Jeff (not Jared). Will you please help me arrange the meeting?

Nancy Riveland and I worked a lot with Steve Brittle on the South Phoenix

cleanup, plus I've run into him at other sites as well. Absence makes the heart grow fonder, I guess...

Yes, I sent Ana some background and we made plans to connect that keep shifting. I will keep trying – I will suggest you be involved as well if she seems interested.

Couple of things –

We received a letter from the City Project re the City of LA and watershed funding for the LA River – seeming inequities. Could be useful in some way. Do you know City Project? Robert Garcia is their ED. He's an attorney and has advanced use of Title VI in context of natural resources and open space.

Assuming County is still on for meeting with the Administrator?

By the way, I spent an hour on the phone yesterday with Steve Brittle and he had wonderful things to say about you (Motorola) ;)

I will keep on it with Ana.

Deldi, you mentioned that the next step is an EPA, DTSC, and County meeting. Is there anything that I can do to help set up the meeting? Thanks!
